Q Station Quick Installation Guide

For Android

1. Installation

2. Connect your smart device to WiFi

By changing your WiFi connection to "bellnetXXXXXX", you will connect to the Q Station.

Notice:

- By default, Q Station SSID is "bellnetXXXXXX". No Encryption. (XXXXXX is the last 6 digit of your MAC)
- Once it is successfully connected to the Q Station, the right indicator light should be a steady blue color. Otherwise it will be blinking.

Figure 1: Power up Q Station

Figure 2: Connect Q Station SSID

Installation Steps:

- 1)Plug in Power Adapter to Q Station.
- 2)Connect the Q Station to the LAN of your Home Router with LAN cable (optional). (If you want to connect internet wirelessly, please refer to Q Station User Guide.)
- 3)Connect the Audio Cable from your Q Station to the AUX of your stereo or speaker.
- 4)Make sure the indicator light of Q Station is blinking with red (left) and blue (right).
- 5)Screw-in the Q Bulbs.

3. Play music & Light show(use your smart phone)

- 1)Install any music APP which supports DLNA protocol (e.g. BubbleUPnP).
- 2)Run BubbleUpnp. (Figure 3)
- 3)Add one song in PLAYLIST.
- 4)In RENDERER, choose "bellmusicXXXXXX". (Figure 4)
- 5)Click "Play" button to play music.

Notice:

- By default, Q Station Speaker Name is "bellmusicXXXXXX". (XXXXXX is the last 6 digit of your MAC)
- DLNA protocol allows you to stream music to the stereo or speaker which is connected to the Q Station. And the Q Bulbs will blink synchronously with your music.

4. Lighting Control

Install BellQ

- 1)Search the APP "BellQ" in Google Play. Download and install it.
- 2)Run it.
- 3)Add one song in PLAYLIST.
- 4)In RENDERER, choose "bellmusicXXXXXX". (Figure 4)
- 5)Click "Play" button to play music.

Light Control

- 1)Click first.
- 2)Click Device SN (e.g. MQ1ACXXX00000XXX).
- 3)Click the LED ID (e.g. lightX MD1ACXXX00000XXX) to enter Light Control Page.

Figure 7: Light Control Page

On Light Control Page

- 1)Click ON or OFF to turn on and turn off the LED Bulbs.
- 2)Slide the little circle to adjust the color of LED.
- 3)Move the intensity bar to adjust the brightness.

Notice:

The number at the lower left of the big circle means the brightness.

On BellQ main page, click to enter Network page:
